

Together We Grow:

The Benefits of Tree Champions for your Parish or Town Council

Improved Reputation and Civic Image

- Having a Tree Warden demonstrates the council's commitment to environmental stewardship
- Having a Tree Warden helps meet statutory and moral responsibilities related to biodiversity and climate change.

Economic and Practical Benefits

Cost Savings

- Tree Wardens can be the early warning detection for issues with trees, and this can prevent costly emergency works.

Please Note- Tree Wardens must never comment on the safety of a tree- this is the role of a qualified arboriculturist/tree officer, who has the expert knowledge and professional indemnity insurance

Funding Opportunities

- Having an active Tree Warden can make your organisation more attractive for environmental grants and community funding schemes.
